Charge

To build on knowledge and experience gained as Quality Improvement Pilot Coaches and serve as a resource to both HTC's and regions in developing QI capacity across the national HTC network.

Work Plan

- Meet on a regular basis to update group members on challenges and successes of continuous quality improvement programs at pilot sites
- Learn from The Dartmouth Institute Microsystem Academy (TDIMA) senior coaching staff with regarding measurement topics and techniques to improve personally upon these skills
- Partner with ATHN/NHPCC to promote the coaching skills of the pilot group and collaborate with HTC's/regions that are in need of direct coaching

Commitment: Conference calls as scheduled to meet the group's goals.

Term: Not applicable

Reports to: Not applicable – Independent group receiving support and guidance from the NHPCC and TDIMA faculty
